

DIVINE LOVE

February is the month when we celebrate Valentine's Day. We normally think of husbands, wives, or sweethearts. However, there is a divine love that supersedes all. We're to love God with all our hearts, soul, mind, and strength and our neighbor as ourselves. If we love properly, focusing on God and in helping our neighbor, our lives will be rich and fulfilling. God will pour His love in our hearts, and we will know more how to love others, including our husbands or wives. What some call love may not be love at all.
