

## HOW BAD DOES IT HAVE TO GET?

How bad does it have to get before you would simply admit that those considered to be experts AREN'T! Long ago I reached that point. You should not pay one bit of attention to those that think that when a guy puts on a dress he becomes a girl and can go to the women's restroom...similar for those who worship sinful disease spreading lifestyles. The holy, separate life style that Jesus calls us to blesses, spreads no disease, and honors God's creative intent for man and woman. That should look so appealing now contrasted with today's darkness. In desperation believe in Jesus, repent of sinful worldly ways, receive Jesus as Lord, welcome the Holy Spirit to follow His leading. Transformations awaits. Jesus is the true expert.
