

## YOU JUST MIGHT NOT KNOW THIS

Due to a famine of the word of God in the land (Amos 8:11), the love of Christ compels me to tell you something you just might not know. The Godless believe matter exploded and people just happened. This is impossible. Creator God exists; He is good, holy and just and there will be a judgment day when we answer for our life. If you do not feed on the word of God, the Bible, and base your life on His will, surely there will be problems. Many base their life on the common teachings on TV, movies, what is taught in public schools, and what others say. These teachings have deceitful names, but their fruit is clear: abortion, divorce, resentment of Godly males, promotion of sexual perversion, picking people apart with diagnoses that the deceived believe, having pills to cope, a void of Godly discipline, having drugged undisciplined children harming themselves and others. Truly loving hearts do not want that fruit in their life. If the deceitful names of these teaching were "sugar, and spice, and everything nice," don't go by the name, go by the fruit. The names for these common teachings are feminism, multiculturalism, tolerance, diversity, and psychology; do not go by the names but the fruit. Those did not come from God; they exalt unGodliness and are intolerant of God and His ways. **Everyone** I have ever seen who drinks deeply of those has many problems. Read Revelation 7:9-10 and Luke 6:31 to see diversity as it is meant to be. God sent his Son Jesus to die for our sins, be raised from the dead, and then sent His Holy Spirit to indwell, lead, and help. We are to believe this and repent and not to turn to psychology but the Holy Spirit and God's word for help. Many times there is an attempt to mix psychology and the other things mentioned with Christianity. That should not be. People are blind to the fact that mixture is not good, and that the mixture is the source of their problems. Mixture hurts self and others. Daily read the Bible to see what God is like and how to be. You will never be the same.
