

THE RIGHT KIND OF HEART

A corn kernel could not just happen. God created it. It is amazing how planting that seed in the right soil with the right weather can produce ears of corn. An even more amazing type of seed is the word of God (Luke 8:11). When ANY word of God seed is planted in the soil of a good and noble heart, a heart not choked by desires for other than God's will, not choked by cares of the world and deceitfulness of riches, THEN that seed will produce transformation in the person's life. Receive the word of God seed that JESUS IS THE CHRIST, THE SON OF THE LIVING GOD in your heart, kick out of your heart what would try to choke that seed, and watch the transformation of you. (Mark 4:2-20, Mt. 16:16)
