## **SERIOUS ABOUT LIFE**

God created us and the earth.

There was not a Godless boom to give people birth.

We are to live the way the Creator intended us to be.

Sin is doing what I want rather than He.

Heaven is for those who go God's Way.

Hell awaits those who rebel and choose worldly sway.

God's Way is to believe in Jesus as God's only Son.

Bearing sins and raised from the dead is what He has done.

The Holy Spirit He sent to give the saved power

To live in love every hour.

Any are only a repentance away

From living a transformed life every day.
