

WHAT LOVE IS

"I want to know what love is," the song was sung.
To the wrong thing some have clung, blind to the harm done.

Love that does no harm to self and neighbor is pure,
God's will is where we need to look for sure.

His will is the love that is real,
Feed on it for a daily meal.
True love you will receive,
This is the core to believe.

God's will is goodness from above,
That from beneath simply isn't love!

Love from above in Jesus came,
Forgiveness and hope are through faith in His name.

God, Jesus, and the Holy Spirit the source tis,
That is where you find what true love really is!
Experience God; deception is through,
Then there's only good to others and you!
